

PROS

- *Wide sidedecks permit easy passage fore and aft.*
- *Inner forestay (owner upgrade) adds versatility.*
- *Three dorades provide ventilation when the boat is buttoned down.*
- *End-of-boom sheeting puts boom loads where they should be.*

CONS

- *Small cabin volume for the length of boat.*
- *Teak toe-rail requires steady attention.*
- *Coachroof penetrations seep water into balsa core.*
- *Inadequate setup for handling ground tackle.*
