

## A CLOSER LOOK

*When it comes to selecting foul-weather gear, the devil is in the details, and our test field offered some unique features and innovations worth noting. 1. The Plastimo XM Offshore has a multi-layered, vented hood that testers found has too much material. 2. The Helly Hansen jacket boasts fluorescent inner sleeves for when making yourself visible is a necessity. 3. The Helly bib trousers uses non-typical fasteners for the suspenders. These are easy to use: Just pop the rectangle in or out of the half-moon clip.*
