## It's the Small Things: Features Make the Difference

In addition to offering extended, reliable protection from harmful UV rays, the UPF clothes we tested also feature some notable design “extras” that testers liked. The Columbia Optimus half-zip (1) has a zip pocket on the left arm that’s a good size for an MP3 player or phone. The Coolibar Travel Shirt (2) has a three-layer collar that unfolds to offer coverage of the entire neck. The Columbia women’s Silver Ridge pants (3) have a gusseted back with plenty of vents and Velcro mesh pockets.
