

Take *PS's* Online Survey on Antifouling

We're looking for reader reports on antifouling. While our continuous testing gives us an idea of bottom paint performance in our test areas (New England, the Gulf Coast, and the Florida Keys), we'd like to find out how the paints fare in other locales. Visit the *Practical Sailor* website, www.practical-sailor.com, and click on "Survey on Antifouling" to let us know how your bottom paint has stood the tests of time.

For an inside look at what's happening at *Practical Sailor*, check out the Inside Practical Sailor blog (www.insidepracticalsailor.com). You'll also find previews of new products and video reports. You can subscribe to the blog for free to get e-mail updates or just drop in from time-to-time. You can also connect with us on FaceBook and Twitter.
