

## INTERIOR NOTES: BALBOA 26

The cabin is roomy and well-ventilated for a 26-footer. But these advantages are offset by minimal working galley space and a head adjacent to the V-berth, which define the boat as a small camping sailor for a couple or small family. If you're lucky, the boat will have the original pre-Reagan administration world map laminated into the dinette table (as our test boat did)—sure to inspire nostalgia for the Cold War era.

**CON: Basic galley**

**CON: No holding tank**
