

STOVE DETAILS

FORCE 10

The Force 10 features a fold-away oven door with a wooden handle. Its heat distribution system outperformed the other test models in baking, and it's the only one that features a top broiler.

TASCO

The stovetop grate on the Tasco lifts easily for cleaning. The burners are topped with attached porcelain caps, a smart feature.

SEAWARD PRINCESS

The Seaward Princess' oven interior—and its burner caps—are coated with porcelain enamel, which is easy to clean and offers good heat distribution, but it is more vulnerable to chipping than stainless.

ORIGO 6000

A standard, 9x13 baking pan does not fit on the top shelf of the Origo oven due to the placement of the thermometer in the upper left corner.
